

John William Branch, M.D.

Curriculum Vitae

Education

Ophthalmology Residency
University of South Florida
Tampa, FL
2006-2009

Transitional Internship
University of Texas Medical Branch
Austin, TX
2005-2006

Doctor of Medicine
University of South Florida
Tampa, FL
2001-2005

Bachelor of Science in Microbiology, Magna cum laude
Clemson University
Clemson, SC
1997-2001

University of Newcastle
Newcastle, Australia
June-December 1999
Study Abroad program

Licensure

Texas
Florida

Professional

Vision Center of Texas
May 2011-Present

Texan Eye, PA
March 2015-April 2018

Austin Eye Clinic
May 2010-April 2011

John William Branch, M.D.

Curriculum Vitae

Greenville Hospital System – Division of
Ophthalmology, Staff Surgeon
July 2009-April 2010

Membership

American Academy of Ophthalmology
ASCRS

Awards

University of South Florida: Most cataract surgeries
performed by resident in history of residency program 2009

Poster Presentation Award
Glaucoma Meeting Basel, Basel Switzerland 2008

Inducted into the Gold Humanism Honor Society/ Arnold
T. Gold Foundation 2005

USF College of Medicine Honor Council 2004-5

USF College of Medicine Class of 2005 Liaison for
Pharmacology

Superior Presentation Award, University of South Florida
Research Day, March, 2003.

Graduated Magna Cum Laude Clemson University, BS in
Microbiology 2001

Dean's List Clemson University

Research/Presentations

A Randomized, Double-masked, Placebo-controlled Phase 1 Study to Assess the Safety, Tolerability, Pharmacokinetics, and Pharmacodynamics of Single Daily and Multiple Daily Ascending Doses of SHP639 Topical Ophthalmic Solution in Subjects with Ocular Hypertension or Primary Open-angle Glaucoma (POAG).

A Phase IIb, Randomized, Observer-Masked, Placebo- and Active-Controlled, Parallel Group, Multinational and Multicenter Study Assessing the

Curriculum Vitae

Safety and Efficacy of DE-126 Ophthalmic Solution in Subjects with Primary Open Angle Glaucoma or Ocular Hypertension.

A Prospective, Multicenter, Randomized, Parallel-Arm, Double Masked, Vehicle Controlled Phase 3a Study Evaluating the Safety and Efficacy of OTX-TP in the Treatment of Subjects with Open-Angle Glaucoma or Ocular Hypertension.

A Phase 3, Double-Masked, Randomized, Controlled Study of KPI-121 0.25% Ophthalmic Suspension Compared to Vehicle in Subjects with Dry Eye Disease.

A prospective, double-masked, randomized, multi-center, active-controlled, parallel-group, 3-month study assessing the safety and ocular hypotensive efficacy of PG324 Ophthalmic Solution compared to AR-13324 Ophthalmic Solution 0.02% and latanoprost ophthalmic solution 0.005% in subjects with elevated intraocular pressure.

A Prospective, Randomized, Single-Masked, Controlled, Parallel Groups, Multicenter Clinical Investigation of the Glaukos® Suprachoroidal Stent Model G3 in Conjunction with Cataract Surgery.

Prospective, Randomized Phase II Study Comparing Two Elution Rates of Glaukos Travoprost Intraocular Implants to Timolol Maleate Ophthalmic Solution, USP, 0.5%.

A three part, first-in-human, randomized, double-masked, placebo-controlled, safety, tolerability and early efficacy study of MGV354 in healthy subjects and in patients with ocular hypertension or glaucoma.

A Phase II, Randomized, Double-masked Study to Evaluate the Efficacy, Safety and Tolerability of Topical Ocular Administration of Fixed-Dose Combinations of Trabodenoson and Latanoprost in Subjects with Ocular Hypertension or Primary Open-Angle Glaucoma.

A Randomized, Multicenter, Double-Masked, Vehicle-Controlled Study of the Efficacy and Safety of OTX-101 in the Treatment of Keratoconjunctivitis Sicca.

A Prospective, Randomized, Single-Masked, Controlled, Parallel Groups, Multicenter Clinical Investigation of the Glaukos® Suprachoroidal Stent Model G3 in Conjunction with Cataract Surgery.

John William Branch, M.D.

Curriculum Vitae

A double-masked, randomized, multi-center, active-controlled, parallel group, 6-month study with a 3-month interim analysis assessing the ocular hypotensive efficacy and safety of AR-13324 Ophthalmic Solution, 0.02% QD compared to Timolol Maleate Ophthalmic Solution, 0.5% BID in patients with elevated intraocular pressure.

A Phase III Multi-Center, Randomized, Double-Masked, Active- and Placebo-Controlled Study of Trabodensoson in Adults with Ocular Hypertension or Primary Open-Angle Glaucoma.

A Multicentre, Double blind, Active controlled, Parallel group, Two arm, Bioequivalence study with clinical endpoint comparing Brinzolamide 1% ophthalmic suspension (manufactured by Indoco Remedies Ltd. for Watson Pharma Pvt Ltd.), to Brinzolamide (Azopt®) 1% ophthalmic suspension of Alcon Laboratories, Inc., in the treatment of chronic open angle glaucoma or ocular hypertension in both eyes.

Primary investigator /clinical site for Allergan MGD AGN-195263 study and OTX-101 Dry Eye study 2014

Branch JW, Groden L. “The effects of Restasis on visual outcomes in myopic post-LASIK patients”. Research presentation ASCRS San Francisco April 2009.

Branch JW, Callahan CE. “Sequence of Pachymetry and Topography in the Ophthalmic Examination”. Poster Presentation ARVO Spring 2007. Resident Research Day January 2008. University of South Florida Regional Meeting May 2008. Presentation Glaucoma Meeting Basel, Switzerland 2008. Poster Presentation Award.
